

The XERO is a powerful small form factor, localized, "software ready" video storage and camera management system. The XERO NVR module has been designed exclusively for the security applications where product flexibility and solid, reliable operation are required for long term operations. The XERO can be used either indoors as a standalone device or outdoors integrated inside a Dotworkz camera housing system.

innovative

NVR: Xero Edge Recorder Module 500GB

Part# 500GB-XERO

Description:

Engineered to host all major Video Management Software (VMS) on the market, the unit comes with Windows Embedded Standard 7 optimized for security video applications.

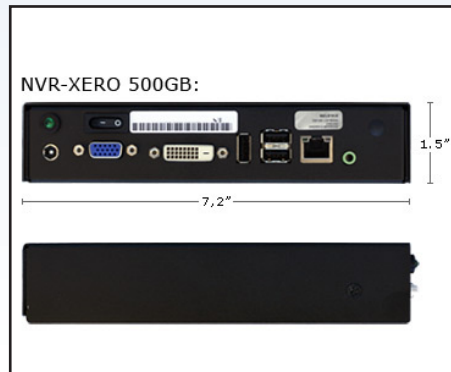

Ideal for remote edge recording, mobile transportation, quick deployment surveillance systems, or anywhere network camera recording and management performance is required.

Features:

- Available in 500GB capacity and an option to integrate into a D2/D3 Environmental Enclosure System.
- VMS ready and tested from leading manufacturers (OnSSI, Milestone, Axis, Sony, Avigilon, IPConfigure, and ExacQ)
- Small form factor for security video systems that require edge recording, mobile, transportation, aviation, and discrete deployments.
- Windows™ 7 Embedded OS engineered for security applications.
- System also supports *Linux based OS (call for info).
- Fast Intel Atom 1.6GHz, 2GB DDR2 memory RAM (Max.)
- 1 year warranty.
- **System also available with Certified Rugged Hard Drives that meet mobile transportation standards for shock and vibration. Please contact a representative for more info.

Specs:

Intel Atom 1.6GHz
2GB of RAM
500GB SATA 7200RPM (16MB Buffer)
VGA & DVI output
3 x USB 2.0 and 1 Gigabit NIC
Operating Temperature:
32° to 140°F (0°C to 60°C)
Power Consumption:
12V, 22W @ typical full load
Dimensions: 7.2" x 1.49" x 7.16"
183mm x 38mm x 182mm
Shipping: 11" x 11" x 6" - 4 lbs (1.8 Kg)
