

The XERO is a powerful small form factor, localized, "software ready" video storage and camera management system. The XERO NVR module has been designed exclusively for the security applications where product flexibility and solid, reliable operation are required for long term operations. The XERO can be used either indoors as a standalone device or outdoors integrated inside a Dotworkz camera housing system.

innovative

NVR: Xero XL Edge Recorder Module 1TB

Part# 1TB-XERO-XL

Features:

- Available in 1000GB capacity and an option to integrate into a D2/D3 Environmental Enclosure System.
- Fanless based system.
- VMS ready and tested from leading manufactures (OnSSI, Milestone, Axis, Sony, Avigilon, IPConfigure, and ExacQ)
- Small form factor for security video systems that require edge recording, mobile, transportation, aviation, and discrete deployments.
- Windows™ 7 Embedded OS engineered for security applications.
- System also supports *Linux based OS (call for info).
- Fast Intel Atom 1.6GHz, 2GB DDR2 memory RAM (Max.)
- 1 year warranty.
- **System also available with Certified Rugged Hard Drives that meet mobile transportation standards for shock and vibration. Please contact a representative for more info.

Description:

Engineered to host all major Video Management Software (VMS) on the market, the unit comes with Windows Embedded Standard 7 optimized for security video applications.

Ideal for remote edge recording, mobile transportation, quick deployment surveillance systems, or anywhere network camera recording and management performance is required.

Specs:

Intel Atom 1.6GHz
2GB of RAM
1000GB SATA 7200RPM (64MB Buffer)
VGA output
4 x USB 2.0 and Dual Gigabit NIC
Operating Temperature:
32° to 140°F (0°C to 60°C)
Power Consumption:
12V, 30W @ typical full load
Dimensions: 7.2" x 1.98" x 7.16"
183mm x 51mm x 182mm
Shipping: 11" x 11" x 8" - 4 lbs (1.8 Kg)
